Objectives and Steps

OVERVIEW & PURPOSE

In this release we have made the following enhancement for the File upload feature - Users can upload the Documents and PDF extension files to the system.
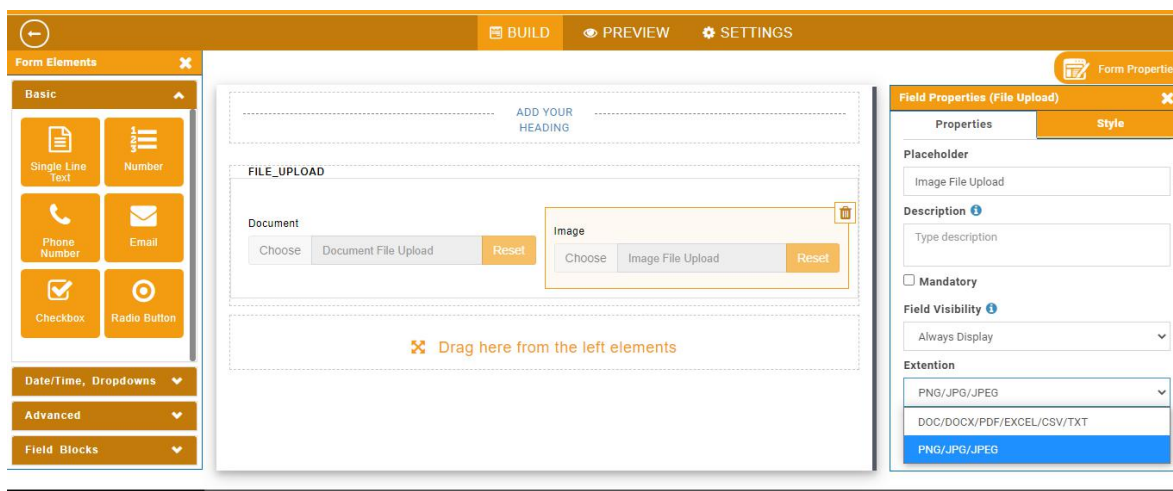

- **Wireless Forms - File Upload - .Pdf**
  - Go to Wireless forms
  - Drop the File upload field on template
  - Here the new property has been added to select the file upload type.
 - Select the file upload type as PDF
  - Select the option

Note : Currently Only .PDF extension is allowed on file upload for the above filter option

Drop Field and select filter from property
