

RELEASE NOTES TASKS

Functionality	User Role Disappears on Edit Mode
Completed	User in Edit Mode
Version	08.07.2022

Verified and Released On

07th July 2022, 08th July 2022

Objectives and Steps

OVERVIEW & PURPOSE

This is a fix done w.r.t the defect raised in which the User Role vanishes when User is opened in Edit mode.With this release now when the user is opened in Edit Mode,the drop down for "Select User Role" displays the User Role.

User Role disappears in Edit Mode:

- From the side menu, expand Personal and select User sub-menu
- Create a new user or Select an existing user and open in Edit Mode
- Check whether the "User Role" Drop down displays data in Edit Mode

 "User Role" drop down should display the role like Driver or Vendor or Customer etc.while editing.
