

RELEASE NOTES

TASKS

Functionality	Assigned Data Wiped Out
Completed	Wireless Forms
Version	08.07.2022

Verified and Released On

07th July 2022, 08th July 2022

Objectives and Steps

OVERVIEW & PURPOSE

This is a fix done w.r.t the defect raised in which the data added under the Wireless Form gets wiped out

Data Wiped Out from Wireless Form

- From the side menu, expand Wireless Form and select Templates: Field Blocks
- Create a field block incorporating three drop downs with dependencies and save the changes.
- Create a Form inclusive of Field Block and enabling its property of "Add Multiple Instances"
- Save the form and open it form to add data.
- Add data in the form and submit the same.
- Open the form in Edit mode to ensure the past data is getting displayed under the drop downs.
